# VT Art Works

Welcome to VTArtWorks

This is Our Demo Site!

Hello there! Welcome to this VTArtWorks demo site for our test group--the Marcellus Shale Project!

VTArtWorks is a project of Virginia Tech Libraries and School of Performing arts, and it represents an effort to better connect, document, and broadcast the work of those working in the field of Community Cultural Development. This demo site focuses on our test group--The Marcellus Shale Project--but we hope that one day a fully-developed website will allow easy, seamless project contributions from artists and community workers across the country!
